(54) **Frame for mosquito net, sun shade or the like for windows, verandas or the like**

(57) The present invention relates to a frame for mosquito nets, sun shades or the like for veranda windows, balconies or similar locations, of the kind wherein a stretch of material (2) for mosquito nets or the like is mounted to slide on two frame posts (1). Both posts of the frame comprise, each: a first semi-hollow section bar (10; 100), U-shaped with parallel wings (11, 12; 110, 110), presenting internally at least one cylindrical groove (15; 150, 150) developing over the entire length of the

first section bar (10; 100); at least a second section bar (5; 500), rotationally hinged within the related first section bar (10; 100) in said at least one cylindrical groove (15; 150, 150), having in the free end a seat (13; 510) for a means of retention (4); a manoeuvring organ for the rotation of said at least second section bar from a position parallel to a wing of said first section bar to a position wherein said means of retention presses against said stretch of material.
