(72) Inventor: **Ortega Bohiges, Juan Jose**
46740 Carcaixent, Valencia (ES)

(54) **Improved disposals applicable to glassed doors**

(57) The door is formed with two sheets (2,2') which can be made of different materials such as wood, plastic, metal and so on, and a core (3). There are no separate mouldings for fixing the glass. Instead the mouldings (5) form a part of the sheets (2,2'). The replacement and introduction of the glass (4) can be made from the

superior, inferior or corner sides.

The central area of the core (3) is provided with a cut out part which opens laterally to one of the top, bottom or side edges of the door (1). That lateral opening can be blocked by a separate piece (6), which after insertion of the glass pane holds the pane inside the door.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 98 56 0001

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
