Description

[0001] The present invention relates to a gift box, in particular a gift box for wedding ceremony.

[0002] Nowadays, there are different classes of gifts, ranging from the less expensive to those very expensive, and therefore there must necessarily be a wide range of gift boxes. As wedding gifts, they carry special meaning. Those who can afford will wish to have wedding gifts to their liking with compatible gift boxes. This is so especially for gifts between a newly wedded couple. Amongst these, paired watches, paired rings and necklaces seems to be comparatively more valuable gifts that cannot be dispensed with. But conventional gift boxes lack the necessary jubilant atmosphere for wedding ceremony.

[0003] The main object of the present invention is to overcome the existing problems of the prior art.

[0004] The present invention relates to a gift box, especially a gift box for wedding ceremony and provides a valuable, elegant and graceful wedding gift box with simple and novel structure and wonderful display effect compared with the prior art.

[0005] The said wedding gift box has a box comprising a box cover and a base box with inner lining. The box is wrapped with leather, paper or composite material. The inside and the outside of the cover and the base box are wrapped up in wedding gauze, as well as the outer surface of the inner lining. The box cover and the base box are generally heart-shaped and the box cover is applied to cover onto the base box to form a 2-piece box or joined by hinges to the base box. The inside of the box has an inner pad with racks or slots for placing wrist watches, or slots, clips or board for placing jewelry. The inner pad can receive a pair of watches or necklace.

[0006] The present invention has the advantages of simple and novel structure and valuable, elegant and wonderful decoration effect corresponding to the jubilant atmosphere of wedding ceremony.

[0008] The following is the description for the drawings combined with examples.

[0009] The present invention relates to a wedding gift box which comprises a box cover and a base box with inner lining. The said box is wrapped with leather, paper or composite material, wherein the inside or the outside or both the inside and the outside of the box cover 1 and base box 2 are wrapped with wedding gauze 5 [in Fig. 1, 2 and 3]. The inside of the box has an inner pad 7 or slots 8 or racks for placing wrist watches and slots 9 or clips 10 for placing jewelry. The outer surface of the inner lining 6 is wrapped with wedding gauze 5 [in Fig. 1]. The said box cover 1 and base box 2 are generally heart-shaped [single-heart or double-heart] [in Fig. 4, 5 and 6], rectangular-shaped [in Fig. 8 and 9] or spherical-shaped. The box cover 1 is applied to cover onto the base box 2 to form a 2-piece box [in Fig. 1] or joined by hinges to the base box 2 [in Fig. 8 and 9]. The inside of the box comprising box cover 1 and base box 2, has an inner pad or racks for placing wrist watches or board 7 for placing jewelry, in order to place a pair of watches, necklaces, rings or other valuable gifts. The gift box in form of heart-shape consists of box cover and the base box for placing necklace and paired-rings. The inner pad 7 for placing the necklace is in the rear portion whereas the slots 8 for placing the pair of wedding rings in the front portion, namely, the tip of the heart-shape. The base structure of the box cover 1 and the base box 2 is made of plastic sheet or chipboard. The outside of the base structure 3 is wrapped with leather, paper or composite material 4 and then wrapped with wedding gauze 5 [in Fig. 7].
