C. Consell de Cent, 322
08007 Barcelona (ES)

(54) **Game**

(57) It is formed by a substantially spherical body (1) and a plurality of elements (2) that can adhere to the surface of said spherical body (1) and is characterized in that said substantially spherical body (1) comprises a couple of recesses (3) provided at opposed positions, each one of said recesses (3) housing a piece (4) of a material provided with a plurality of hooks in its external

surface, said pieces (4) being joined together by a couple of tapes which are also provided with a plurality of hooks on their external surface; said elements (2) being provided with a textile surface complementary to the surface provided with a plurality of hooks, so that these elements (2) can adhere by contact to the substantially spherical body.

It is obtained a game with a low cost of production.

FIG. 2
