(54) **Automatic management terminal, particularly for the valuables-transport service**

(57) A terminal for the automatic management of, in particular, the valuables-transport service, comprising a body (2) for containing a central unit (3) which is connected to a coupling element (5) which can be connected to a valuables-transport container to be checked. The body (2) is associable with a plate (11) which can be fixed to a fixed structure and is provided with at least one element (20,21) for coupling to the body (2) which has means for interrupting the connection between the central unit (3) and the coupling element (5) when the body (2) and the plate (11) are separated.
