(54) **Stick grip**

(57) A grip with a wrist strap, particularly for walking sticks, trekking sticks and poles for mountain skiing and cross-country skiing, includes a grip body (9) and a wrist strap (7) which is secured to the body by means of a device for locking and adjusting the working length of the wrist strap. The locking and adjustment device in-

cludes an oscillating member (3) which has an end which is pivoted to the body and an oscillating end defining two positions: a locking position for locking the sliding of the wrist strap and a release position in which the strip is free to slide with respect to the oscillating end and to the grip body in order to adjust the working length of the wrist strap.
