(54) **Scaffolding platform and procedure for the realisation thereof**

(57) A scaffolding platform (1) comprises a flat element (2) with elements (3) for connecting to said scaffolding at the opposite ends. Each of said connection elements (3) comprises a body defined by a single folded sheet which has stiffening means both on a first portion (4) associated with said flat element (2), and on sec-

ond hookshaped portions (5) which can be associated with said scaffolding.

A procedure for realising a scaffolding platform (1) comprises a cutting step and subsequent folding steps of a connection element.

Moreover, the procedure also comprises a cutting step and subsequent folding steps of a flat element.

European Patent
Office

Application Number
EP 01 12 7183

CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing more than ten claims.

- ☐ Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims and for those claims for which claims fees have been paid, namely claim(s):
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims.

LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- ☐ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☐ As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
- ☐ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
- ☒ None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:

1-6, 7-9 when claims 7-9 are dependent on claim 6

European Patent
Office

**LACK OF UNITY OF INVENTION
SHEET B**

Application Number
EP 01 12 7183

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 1-6, 7-9 when claims 7-9 are dependent on claim 6

Spacers for connection elements of a scaffolding platform
(cf. claim 6)

2. claims: claims 1-5, 7-9, when claims 7-9 are not dependent on
claim 6

Device for locking a scaffolding platform on the tubular
elements of a scaffolding (cf. claim 9)

3. claims: claims 10-13

Alternative method for making a connection element for a
scaffolding platform (cf. claim 10)

4. claim: Claim 14

Alternative method for making a reinforced board for a
scaffolding platform.

European Patent
Office

INCOMPLETE SEARCH
SHEET C

Application Number
EP 01 12 7183

Claim(s) searched completely:
1-14

Claim(s) not searched:
15

Reason for the limitation of the search:

Claims 15 contains references to the description. According to Rule 29(6) EPC, claims should not contain such references except where absolutely necessary, which is not the case here (see the Guidelines, C-III, 4.10).

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 01 12 7183

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
