(54) **Extraction system, particularly for extracting noxious gases from spaces located partially below ground level**

(57) An extraction system, particularly for extracting noxious gases from an enclosed space (50) located partially below ground level, comprising a plurality of floor-level intakes (2) connected to a first suction duct (5) as-

sociated with a water discharge channel provided with means that allow the unidirectional flow of the water. The first suction duct (5) is conveniently affected by at least one second duct (8) suitable for the forced external expulsion of the collected gas.
