(54) **Method for production of a moulding for an outer metal surface of a motor vehicle, and moulding obtained by means of this method**

(57) Method for production of a moulding (3) for an outer metal surface (2) of a motor vehicle (1); according to this method the moulding (3) is produced by positioning at least one magnet (20) in a forming mould, and subsequently injecting plastic material in the mould itself in order to form an outer body (12) for the outer surface (2) of the motor vehicle (1); a surface (16) for delimiting the magnet (20) constitutes part of the outer surface (8) of the moulding (3), in order, in use, to be disposed against the outer surface (2) of the motor vehicle (1).

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 02 01 0104

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
