(54) **A device for displaying the position of a force-adjusting component for a ski binding, particularly for a heel unit or a toe unit of a ski binding**

(57) A display device (1) for displaying the position of a force-adjusting component (3,7) for a ski binding, particularly for a toe unit or a heel unit of a ski binding, comprising display elements (8) that are operatively associated to the force-adjusting component by way of an

interconnection element (12), which is associated to a main body (5) of the toe unit or the heel unit (2). The interconnection element (12) is activated by an axial shift of the force-adjusting component along the main body of the toe unit or a heel unit of the ski binding.
