(54) **Suspension device for decorations**

(57) It concerns a suspension used for the fastened installation of hanged decorations or garlands of light pipe -3-3a-3b-. For this suspension clamps of OMEGA 'Ω' type directly to wooden piles or clamps -1b- with multiple holes can be used.

EP 1 310 932 A2

Description

[0001] This invention concerns a construction for the suspension of decoration figures on light piles in streets and squares.

5

[0002] Since now these decorations were fastened with wire or frames.

[0003] With my suspension system we succeed the stable adaptation on lights avoiding the vibrations because of the wind resulting in the destruction of the decorations and their easy reassembling.

10

[0004] A practical application is presented concerning the attached drawings:

[0005] In figure 1 we see the suspension on the light with iron net and clamps of OMEGA 'Ω' type.

15

[0006] In figure 2 we notice the perspective of the suspension on the light with clamps of OMEGA 'Ω' type.

[0007] In figure 3 the suspension with wooden net and simple clamps is presented.

[0008] In figure 4 the frontage of the suspension with central support with iron or wooden net with clamps of OMEGA 'Ω' type is depicted.

20

[0009] In figure 5 the decoration with the clamps is showed.

[0010] In figure 6 we see the perspective of the designed suspension of the decoration.

25

[0011] In figure 7 the frontage of the installation of the circular decoration on the light is presented.

[0012] In figure 8 the frontage of the clamps' assembling is depicted. In figure 9 the top view of clamps' assembling is showed.

30

[0013] In figure 10 the oblique side of a clamp of OMEGA 'Ω' type is presented.

[0014] In figure 11 we see the frontage of a clamp of OMEGA 'Ω' type.

35

[0015] In figure 12 the frontage of a different version of a clamp of OMEGA 'Ω' type is depicted.

[0016] Considering the drawings the suspension of decoration is completed with the use of clamps of OMEGA 'Ω' type -1- and through holes -8- the decoration is fastened with bolts -4- and nuts -6- to each others and with the lights -2-2a-2b- or directly or with the use of arms -5-5a- assembling fasten the decorations or the garlands of light pipe -3-3a-3b. Moreover, the simple clamps -1a- with nails -7- directly on the wooden pile or clamps -1b- with multiple holes can be used.

40

Claims

50

1. The suspension of decorative garlands of light pipe -3-3a-3b- is defined by the fact that it is completed with the use of clamps of OMEGA 'Ω' type -1- and through holes -8- the decoration is fastened with bolts -4- and nuts -6- to each others and with the lights -2-2a-2b- or directly or with the use of arms -5-5a- assembling fasten the decorations or the garlands of light pipe -3-3a-3b.

55

2. The suspension of decorative garlands of light pipe -3-3a-3b- as claim 1 is defined by the fact that simple clamps -1a- with nails -7- directly to wooden piles or clamps -1b- with multiple holes can be used.
