(54) **Stone polishing pad containing cork powder and method for manufacturing the same**

(57) Disclosed are a mixture of a stone polishing pad, a stone polishing pad made of the mixture and a method for manufacturing the stone polishing pad. Instead of planar structure, the stone polishing pad has polishing protrusions and an uneven surface formed on the surface of the polishing protrusions that contacts

with the polished object. The stone polishing pad is formed by charging a mould with the mixture of the stone polishing pad that includes cork powder, and forming the same under high temperature and high pressure.
