(54) **Gas insulated switchgear**

(57) The output shaft (111) of a hydraulic drive unit (110) and the drive shaft of a movable contactor (103) of gas insulated switchgear are linearly arranged, and the longitudinal shaft of an accumulator (114) using gas as an accumulation source is arranged parallel to the output shaft (111) of this hydraulic drive unit (110); further, a

high pressure block equipped with a conduit (115) for supplying high pressure hydraulic oil to the hydraulic drive unit (110) from this accumulator (114) is arranged perpendicularly to the aforementioned two drive shafts, thereby supporting and fixing the hydraulic drive unit in position.
