(54) **Lighting system for road signals painted or applied onto the ground**

(57) The invention refers to the field of ground signals and in particular of road signals, and more precisely it refers to a lighting system for public or private signals that are painted or applied to the ground. The system provides for a combination of a box-shaped member ca-

pable of being walked onto and anyway resisting to motor-vehicles passing over there and adapted to contain a lighting source adapted to strike the signals painted or applied onto the road blanket; signals painting or application through or including highly reflecting and/or fluorescent paints.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 03 02 3070

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
