(54) **Universal dispenser of sanitizing liquid for containers of water or the like, particularly flushing cisterns for toilets**

(57) A universal dispenser (1) of sanitizing liquid for containers of water or the like, particularly flushing cisterns for toilets, comprising a tank (2) of sanitizing liquid that is associable with a container of water or the like and is provided with an outlet (4) for discharging the liquid into the container, and means (8) for opening and closing the outlet (4), which comprise a flow control element (9) that is associated so that it can move externally with respect to the tank (2) at the outlet and an actuation assembly (10) that is adapted to actuate the flow control element (9) alternately between a closed configuration and an open configuration of the discharge outlet, depending on the level of the water that is present inside the container.
