(54) Hanging clothes drying rack

(57) A hanging clothes drying rack comprising an open or closed perimetric frame (10), between peripheral regions of which there are rod-like elements (14) over which the clothes are hung, the frame (10) being associated in two mutually opposite regions with respective supporting arms (15); each one of the arms (15) is pivoted to a corresponding frame element (11) and is coupled so

that it can slide along the frame element (11), the portion of the arm (15) designed for coupling to the frame (10) being provided with a comb-shaped edge (18), between the teeth (19) of which at least one of the rod-like elements (14) over which the clothes are hung is arranged in abutment when the arm (15) is at right angles to the plane of arrangement of the frame (10).

ANNEX TO THE EUROPEAN SEARCH REPORT ON EUROPEAN PATENT APPLICATION NO.

EP 04 00 0597

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
