(54) **Package for rod-shaped articles along with accessories comprising inspection window**

(57) The package comprises a primary package element (3) for accommodation of the product (1) together with at least one secondary package element (4) for accommodation of accessories of the product. The primary package element (3) comprises two tubular stiffening parts (5, 6) each having a cross section essentially cor-

responding to that of the package and being placed at a mutual distance in the longitudinal direction of the package. The primary package element comprises a transparent part (7) surrounding the tubular parts over the entire length of the package such that also in packed condition, it will be possible to see the product.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 05 07 6138

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
