(54) **Disappearing facade element for illumination of building facades and facade including said element**

(57) A building façade element designed to be inserted in a façade frame to be basically coplanar with other elements making up the façade surface includes at least one panel (13) movable between a position virtually coplanar with the façade surface (11) and a position protruding from the façade surface and contains a light source (14) designed to illuminate the exterior of the façade when the movable panel (13) is in the protruding position.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 05 01 7458

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
