(54) **A modular structure for non-permanent sectioning-off of external spaces having linear or broken profile, and an assembly process therefor**

(57) At least a first modular element (2) and a second modular element (2') each exhibit a pair of uprights (3), preferably a right upright (3a) and a left upright (2b), each developing vertically and having a straight transversal section, which uprights are associated to at least two crossbars (4,5) and a panel (6) connected thereto; the

process includes making a first series of holes (7) on the right upright (3a) of a first modular element (2) and a second series of holes (8) on the left upright (3b) facing the right upright (3a), belonging to a second modular element (2'). Thereafter the first series of holes (7) are connected to the second series of holes (8) by removable means for connecting coupled to spacers (10).

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 05 02 0378

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
