(30) Priority: **02.02.2005 DK 200500160**

(54) **Floor drain**

(57) A floor drain (2) with a drain bowl (4) with a preferably cylindric outer side (6) and a lower central drain connection which is adapted for connecting to either a straight drain pipe or to an angular drain pipe (10), the floor drain (2) including a mounting flange (12) with a central connecting opening (16) which by means of packing means (18) is adapted to be mounted tightly externally

of the cylindric outer side (6) of the drain bowl (4). In a simple way is hereby achieved a floor drain with a drain bowl with associated mounting flange which may easily be adapted to the height of an existing as well as a newly established building membrane, as the flange for mounting to the membrane may be displaced vertically and externally of the drain bowl.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 06 00 1982

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
