(54) Method for fabricating paper-mounted handicrafts

(57) A process for fabricating figured paper-mounted handicrafts, comprises the steps of:

- (i) providing a blank, smoothing the blank surface by surface-treatment until it is sufficiently smooth for facilitating adhesive-coating;
- (ii) coating an adhesive on the blank and mounting a figured-paper on the blank;
- (iii) soaking the figured-paper mounted blank into an adhesive (or coating an adhesive on the blank), taking it out after a given time period and oven-drying;
- (iv) then soaking the oven-dried semi-finished product into an epoxy coating, taking it out and oven-drying again;
- (v) finally, assembling the oven-dried glue-soaked semi-finished product to obtain a product.

By using the process of the present invention, a variety of products having different appearances and higher delicacy can be fabricated.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 06 25 1037

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
