(54) **Tray for inking and/or collecting ink in rotogravure rotary printing machines**

(57) The invention deals with the field of printing machines of the rotogravure rotary type, and in particular deals with a tray (1) for inking and/or collecting ink which is coated and protected by a film (2), the film (2) being rest inside said tray (1) during the printing step.

The film (2) is kept in position, when printing, and secured to the tray by means of an ink level frame (5);

the frame (5) is also placed inside the tray (1) and divides it into two areas, an ink collecting area, that is an area inside the frame (5), and another excess.ink discharging area, outside the first area and confined by the tray (1) itself. Ink is discharged from the above area by means of a discharge bush. At the end of use, the film (2) is discarded and replaced keeping the tray clean and avoiding its washing.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 06 01 6489

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
