(54) **Adjustable extension ring for drains**

(57) In order to provide an extension ring which by simple means is easy to attach safely to a drain while it simultaneously permits precise setting thereof relative to the underlayer for the drain, and wherein said extension ring (2) comprises a first member (6) and a second member (7) cooperating therewith and said first member includes means (8) for mounting the extension ring on an inlet member of the drain, the first member (6) of the

extension ring (2) also includes first adjusting means (9) which cooperate with second adjusting means (10) on the second member (7) of the extension ring for stepless adjustment of the second member in vertical direction relative to the first member, such that said second member, after mounting of the extension ring on the drain, can be set relative to an existing or future level of the upper side of the underlayer in which the drain is located
