(54) **Modular structure for making storage blocks for products to be inserted into vending machines**

(57) The present finding concerns a modular structure for making storage blocks for products to be inserted into vending machines. In particular where products (P) of even substantially different size are required to be au-

tomatically distributed by one machine. Said structure is characterised in that it foresees that the cells for containing products be defined through elements, arranged vertically (2) and horizontally (3), which removably fit together.

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 06 01 6293

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.  
The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
