(54) **Ironing Board**

(57) This invention relates to an ironing board (10), which according to its first aspect has an ironing panel providing an ironing surface of a first shape, the ironing board having an extension piece (20) which can be fitted to the ironing panel (12) to provide an enlarged ironing surface of a second shape. According to the second aspect the ironing board (10) is collapsible and comprises an ironing panel (12) and a pair of legs (14,16), the legs being movable relative to the ironing panel (12) between an extended condition and a collapsed condition, the ironing board (10) incorporating a stay (52) which can retain the legs in their extended condition, the stay having a release lever (60) which can be operated to overcome the stay (52) and allow the legs to move to their collapsed condition, characterised in that the release lever is located adjacent to one end of the ironing panel. According to its third aspect, the ironing board has an integral iron rest, the iron rest (16) including a part for receiving the sole plate (70) of an iron, characterised in that the part for receiving the sole plate is recessed.

### CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing more than ten claims.

- ☐ Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims and for those claims for which claims fees have been paid, namely claim(s):
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims.

### LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- ☐ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☐ As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
- ☒ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:  
1-4, 5-8
- ☐ None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:
- ☐ The present supplementary European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims (Rule 164 (1) EPC).

Office

**LACK OF UNITY OF INVENTION  
SHEET B**

Application Number

EP 06 25 5749

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 1-4

an ironing board having a detachable extension piece

---

2. claims: 6-8

an ironing board having collapsible legs with a release lever located at one end of the ironing board

---

3. claims: 9,10

an ironing board having an integral iron holder with a recessed part

---

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 06 25 5749

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.  
The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
