Remarks:

This application was filed on 02 - 05 - 2007 as a divisional application to the application mentioned under INID code 62.

(72) Inventors:

• **Tsukamoto, Junichi**

Tokyo (JP)

(54) **Data bus communication**

(57) A data communication system and method are disclosed which provide for the secure transmission of video data among devices connected to a video data bus.

The video data is transmitted with address information corresponding to a particular device or, alternatively, video data is encrypted and transmitted on the data bus without address information.
