(54) **Mooring system for a floatable unit**

(57) The present invention relates to an inflatable, floatable unit (11), such as a liferaft or platform, having a first side (12), which during use is facing a side (10) of a vessel (3). Said floatable unit (11) comprising a mooring system (4) for mooring the floatable unit (11) to the side (10) of the vessel (3) by means of a first and a second

turning point (8,9) arranged at the side (10) of the vessel (3), said mooring system (4) is attached directly or indirectly to the first side (12) of the floatable unit (11) at at least a first and a second connection point (13,14). The invention is characterised in that the mooring system (4) comprises one mooring line (5) which is connected to one mooring point (6) at the vessel (3).

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 07 10 2439

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
