(54) **Tool for laying floors, for gripping window or door glass panes, for removing residual concrete or the like, and for removing previously laid floors**

(57) A tool for laying floors, for gripping window or door glass panes, for removing residual concrete, plaster or glue, and for removing previously laid floors, comprises a prism-shaped hollow body (1), a first stop (2), a second stop (3), a weight, means enabling the movement of the weight, a hitting element (6), a cap (7) and plates (8) made of an anti-scratch material; the stops (2,3) are placed at both ends of the hollow body (1); the hitting element (6) is fixed with screws (13) to the second stop (3); the means enabling the movement of the weight are placed between the two stops (2,3); the weight is shifted manually thanks to a handle (10) fixed to the weight; the quick movement of the weight and the collision against the first stop (2) causes the shifting of the tool and the component part of the floor or the section (16) gripping window or door glass placed against the hitting element (6); underneath the base of the body (1) leaning on the floor, plates made of an anti-scratch material (8) are fixed.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 07 42 5127

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
