(54) **Attachable apparatus for hands-free holding of handheld form factor items**

(57) An attachable apparatus (100) for hands-free holding of handheld form factor items such as handheld devices includes a receptacle (102), a substrate (104), and an adhesive layer (124), the receptacle configured to receive and retain the handheld form factor item and

the adhesive layer disposed on at least a portion of a surface of the substrate to allow a user to removably adhere the attachable apparatus to a first article at a first time and to a second article at a second time, after removal from the first article.
