(54) **Tissue dispenser**

(57) A tissue paper dispenser comprising a housing (1) having two opposite side walls with holders (2) for the tissue paper reels from which the paper is dispensed. Said holders are cooperating with reel supports (3) attached to the ends of the paper reels and equipped with a support pin projecting centrally from the inner of the support. At least at one end of the reel the respective support (3) is provided with a circular surface brought into contact with a lever element (4). The lever stays in friction contact with said circular surface when the reel is in the service position.
