(54) **Water drain system**

(57) Water drain system for precipitation that falls on-
to a building, wherein the building is provided with a roof
and a water gutter receiving precipitation from said roof,
wherein the building is furthermore provided with a cavity
wall, wherein the water drain system comprises a drain
line that at the upstream end is connected to a drain of

the gutter and at the downstream end is connected to a
further section of the water drain system, wherein the
drain line is accommodated in the cavity of the cavity wall
at least with a vertically draining drain line section.
