(54) **Integrated protecting device for head and neck**

(57) The built-in protective device for motorcyclists comprises a rigid helmet (1) to protect a user's head against blows and at least one piece of thermal insulation fabric attached to the helmet (1), said piece of fabric forming a garment (4) suitably shaped and provided with a certain flexibility for being adapted around the user's neck in an operative situation in order to protect the user's neck from wind, rain, and moisture. The helmet (1) com-

prises a housing defined by a bag attached to the helmet (1) and provided with a practicable closing device (6), said bag being suitable for housing and closing the garment (4) in a folded situation. Portions of the garment (4) are shaped and sized so as to be extracted from the bag and extended by the user, said portions being provided with attachment means (8) to secure the garment (4) around the user's neck.
