(54) **MEDICINE AND FUNCTIONAL FOOD FOR CONTROLLING OR RELIEVING ITCHING AND INFLAMMATION**

(57) The present invention provides a pharmaceutical composition and functional food for suppressing and relieving itching and inflammation.

The pharmaceutical composition and functional food of the present invention for suppressing and relieving itching and inflammation contain highly lipophilic poly-

alkoxyflavonoid extracted from squeezed juice of a whole portion of a citrus fruit (inclusive of pericarp thereof). Furthermore, the functional food of the present invention contains it.
