(54) **Label for luggage**

(57) The present invention relates to a label for luggage formed by an elongated strip of material which comprises an adhesive coating of the pressure tag type over at least part of the surface area of the label, wherein the width of the strip at the location of a bending portion of the length of the strip is smaller than the width of the strip side said bending portion, wherein the strip is provided

with a neutralised adhesive of the pressure tag type at the location of said bending portion and with a non-neutralised adhesive of the pressure tag type between the respective ends of the strip and the bending portion, wherein the colour of the neutralised adhesive is different from the colour of the non-neutralised adhesive, as well as to a method for manufacturing a web of such - interconnected - labels.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 08 00 8162

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
