(54) **Multipurpose printing machine**

(57) The invention relates to a multipurpose printing machine that can be applied to print on panels (6) intended for forming packaging boxes, comprising a conveyor for transporting the panels along a path through one or more print heads, each of which includes a print applica-

tor roller (5), and related thereto an arrangement for selectively holding on one and the same support (16) different inking modules (7.1, 7.2, 7.3, 7.4) to define different application systems according to the printing to be carried out.
