(54) **A cooking oven door with a door frame and a door panel**

(57) The present invention relates to a cooking oven door including at least one door frame and at least one door panel (10). The door frame includes a U-shaped part (12) with a centre portion (14) and two legs (16). The U-shaped part (12) is formed as a one-piece plastic part. The door panel (10) is inserted within the U-shaped part (12). The U-shaped part (12) encloses three circumfer-

ential sides of the door panel (10). The U-shaped part (12) comprises support elements (18) on its inner side in order to hold the door panel (10) in a predetermined position. At least one fixing element (22) is attached or attachable on at least one free end portion of the leg (16) in order to secure the door panel (10) within the U-shaped part (12).
