(54) **Method for the cultivation of microorganisms of the order thraustochytriales**

(57) The present invention relates generally to the field of microorganism cell culture. It devises a cell culture medium for and a method of culturing microorganisms of the order Thraustochytriales, especially for the production of omega-3-fatty acids. Furthermore it devises

the use of ammonium tartrate as nitrogen source for the cultivation of microorganisms of the order Thraustochytriales.
