(54) **Pair of pre-cabled posts for sliding or swing gates**

(57) The invention relates to a pair of pre-cabled posts for sliding or swing gates. A first post is fitted with an ECU and at least a first electric actuator able to move a respective leaf of the gate, a presence sensor, and at least a first light signalling device; a second post is electrically connected to the ECU by means of an electric cable which extends from the first post, enters the tubular

body of the second post at the bottom and terminates at the height of the presence sensor and/or a second electric actuator able to move a respective second leaf of the gate and/or a second light signalling device. The ECU and the first light signalling device are attached to and extend from a support cover able to seal the tubular body of said first post of the gate at the top.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 09 15 3408

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
