(54) **A ski pole's rotating hand holding means**

(57) A ski pole has holding means configured to hold a hand of a user of the ski pole substantially fastened to an upper end portion of a shaft (2) of the ski pole and comprises a substantially rigid support member (7) having first support portions (8) adapted to form a substan-

tially rigid support to at least portions of the palm of a said user while allowing the hand of the user to grip around a hand grip (3) on the shaft in a first base position of the support member. The support member is pivotably connected to said shaft.
