(54) A compact lighting equipment

(57) A compact lighting equipment, especially used for illuminating large commercial and/or industrial areas, comprising a structure, made of rolled and painted steel, which is suspended from ceiling by means of steel cables and proper fastening brackets (15) present between the structure and cables; according to the invention, the structure includes at least two bodies (10, 11), joined together by a hinge system (16), which allows, in a closed position of the equipment, to obtain a product length substantially equal to half the length of the products currently on the market.

The present search report has been drawn up for all claims

Place of search	Date of completion of the search	Examiner
The Hague	9 September 2010	De Mas, Alfonso

CATEGORY OF CITED DOCUMENTS

X : particularly relevant if taken alone
Y : particularly relevant if combined with another document of the same category
A : technological background
O : non-written disclosure
P : intermediate document

T : theory or principle underlying the invention
E : earlier patent document, but published on, or after the filing date
D : document cited in the application
L : document cited for other reasons

& : member of the same patent family, corresponding document
