(54) **Integrated life-saving or safety device for transport means, use of said device as a piece of furniture of a transport means and transport means incorporating at least a plurality of said devices**

(57) Individual life-saving or safety device, of type apt to guarantee floating or safety on water of one or more people, in a transport means susceptible of finding itself in dangerous or emergency situations on water sheets. The device includes a safety system or floating body (1,2) and quick-release anchoring means (4,5) to securely fasten said body to a movable or stationary sup-

port (8) of said transport means, whereof it forms an integrating part in conditions of ordinary running of the means, wherein the release operation from said anchoring means occurs without using tools. The invention also refers to the use of said device as a piece of furniture of the transport means and a transport means comprising a plurality of said life-saving devices.
