(54) **Controlled mechanical ventilation box with changeable direction inlet ports and outlet ports**

(57) The invention relates to a controlled mechanical ventilation device with directable nozzles, formed by a controlled mechanical ventilation (CMV) unit (1), which has multiple intake openings located in an inclined position in the lower part and an air discharge outlet having two openings directed towards the side and towards the

upper part, respectively, nozzles (5) provided with an inclined face for coupling on the intake openings being arranged in said intake openings, whereas a nozzle (6) is arranged in an opening of the discharge outlet and a shutter cover (8) is arranged in the other opening.

ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.

EP 10 15 2976

5

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
