(54) **Lockable shelf**

(57) A shelf can comprise a rear face locatable between a first profile and a second profile wherein the first profile fixes the rear face in two directions at right angles to one another and the second profile fixes the rear face

in a first of the two directions, deformation of a region of the shelf causes it to be locked relative to the second profile in the second of the two directions.

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 10 15 9172

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
