(54) **Sticky note pad**

(57) A sticky note pad (100) includes at least two stacks (3) of sticky note sheets (31). Each sticky note sheet (31) has a note-writing region (311), an index tab region (312) projecting from a right lateral edge (314) thereof, and a removable pressure sensitive adhesive layer (32) provided on a bottom face thereof in proximity to a left lateral edge (313) thereof. The index tab regions (312) of the sticky note sheets (31) of one of the stacks

(3) are staggered with respect to the index tab regions (312) of the sticky note sheets (31) of the other stack (3) in a top-to-bottom direction, and are aligned to the same in a direction parallel to the lateral edges (313, 314) of the sticky note sheets (31). A glue layer (41) binds the left lateral edges (313) of the sticky note sheets (31) of all the stacks (3). A partition sheet (33) is adhered to the bottom face of a lowermost sticky note sheet (31) of an upper stack (3).

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 10 18 9189

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
