### (54) Power tool storage case

(57) A power tool storage case 1 for storing an electric power tool comprises: a main body casing 2 having a storage portion 4 configured to store an electric power tool; a lid member 3 hingedly connected to the main body casing 2 and capable of opening/closing the storage portion 4; a sub-storage portion 13 provided at an outer surface of the lid member 3; and an outer lid 14 hingedly connected to the lid member 3 and capable of opening/

closing the sub-storage portion 13. In this storage case 1, a locking portion is provided on the outer lid 14 so that when the sub-storage portion 13 is closed by the outer lid 14, the locking portion is moved to an engagement position at which the locking portion is engaged with an engageable portion provided on the lid member 3. The locking portion is movable from the engagement position to a disengagement position at which the locking portion is disengaged from the engageable portion.

### CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing claims for which payment was due.

- Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due and for those claims for which claims fees have been paid, namely claim(s):
  
  
  
  
- No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for those claims for which no payment was due.

### LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
- Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:

- None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:

see additional sheet(s)

- The present supplementary European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims (Rule 164 (1) EPC).

**LACK OF UNITY OF INVENTION  
SHEET B**Application Number  
EP 10 19 5658

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

**1. claims: 1-11, 13, 15**

A power tool storage case comprising potential special technical features relating to a partition projection which is parallel to a handle (9) being provided between the locking portion and the handle (9) on one of the lid member (3) and the outer lid (14).

---

**2. claim: 12**

A power tool storage case comprising potential special technical features relating to each of the barb (20) and the stopper projection (29) having a slanted surface.

---

**3. claim: 14**

A power tool storage case comprising potential special technical features relating to a guide rod being provided on and protruding downward from the lower surface of the locking plate (17) along the coil spring (27).

---

**4. claim: 16**

A power tool storage case comprising potential special technical features relating to a finger rest hole (18) or a circular recessed portion (44) being formed in an upper surface of the locking plate (17).

---

**ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.**

EP 10 19 5658

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
