(54) **Tower assembly**

(57) The invention relates to a tower assembly for mounting security, safety or communications equipment, the tower assembly comprising a plurality of towers, each tower comprising a base and a column, and a carrier unit configured to retain the plurality of towers in their stowed position and from which at least a first base and a first column is removable and at least a second column is mountable upon the carrier unit in the deployed position of the assembly. The invention also relates to a method of erecting a tower assembly.
