(54) **Optical glass, preform for precision press molding, optical element, and method for manufacturing optical element**

(57) The present invention relates to an optical glass having a refractive index n_d of 1.86 or higher and an Abbé number $v(\nu)_d$ of 28 to 36; a preform for precision press molding and an optical element that are comprised of this

glass; and a method for manufacturing the optical element.
