Leatherhead Surrey KT22 7SG (GB)

(54) **Extending platform**

(57) A platform providing a work surface, the platform comprising: an extendable support structure (3); a deck (4) mounted on the support structure; a wing (5) rotatably secured to an extending section of the support structure, wherein: in a first configuration, the extending section is retracted and the wing (5) is inactive such that it does not define part of the work surface; and in a second configuration, the support structure is extended and the wing (5) is positioned to be supported by the support structure such that the deck and wing together define the work surface.

The present search report has been drawn up for all claims			
Place of search Munich		Date of completion of the search 8 August 2014	Examiner Scharl, Willibald
CATEGORY OF CITED DOCUMENTS X : particularly relevant if taken alone Y : particularly relevant if combined with another document of the same category A : technological background O : non-written disclosure P : intermediate document T : theory or principle underlying the invention E : earlier patent document, but published on, or after the filing date D : document cited in the application L : document cited for other reasons & : member of the same patent family, corresponding document			

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 12 15 0662

5

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
