(54) **Apparatus and method for performing web browsing using remote controller**

(57) A method for web browsing in a remote controller including a touch screen includes sending a browser execution command at a device capable of web browsing; receiving a HyperText Markup Language (HTML) file corresponding to a webpage to be displayed in the device, from the device capable of web browsing; and displaying a webpage corresponding to the HTML file using a browser. A method for web browsing in a device capable of web browsing includes receiving a browser exe-

cution command from a remote controller including a touch screen, requesting a corresponding webpage from a corresponding server, receiving an HTML file of the corresponding webpage from the corresponding server through the browser, and sending the HTML file of the corresponding webpage to the remote controller including the touch screen. Hence, the user can browse on the web more easily.
