(54) **Projector, projection control method, and storage medium storing program**

(57) In a projector, a controller (14) sets a start timing and an end timing of a color transitional period which includes the color switch timing in a center of the color transitional period, and sets one of the start timing and the end timing to coincide with a light source switch timing at which the color of the light emitted by the light source unit (16) switches. A projection drive unit (13) controls the display drive of the display element (15) based on the start timing and the end timing.
